

One of Climate Chamber Test Service Will Be Stopped

ITTC has two test methods of climate chamber test.

From Sep 1st, 2017, One climate chamber test method with temperature and humidity below will be stopped in order to keep pace with the test method conducted in IKEA Testing Lab of Sweden. We will not accept the new orders from now on.

Test requirement:

| | Temperature | Relative Humidity |
|---------|--------------------|-------------------|
| Week 1: | Constant 35(±2) °C | 85% (±5) |
| Week 2: | | 60% (±5) |
| Week 3: | | 25% (±5) |
| Week 4: | | 75% (±5) |
| Week 5: | | 50% (±5) |

If you have any problem of this issue, please feel free to contact with ITTC Client Service for help.
