Mirror, silver coated – general requirements

Basic requirements for silver coated mirror glass - silver content

Updates on ITTC Website

Since the new version of ITTC website was launched last July, ITTC has made several updates. Below are some of the changes:

1. Updated Test Application Form Option Title

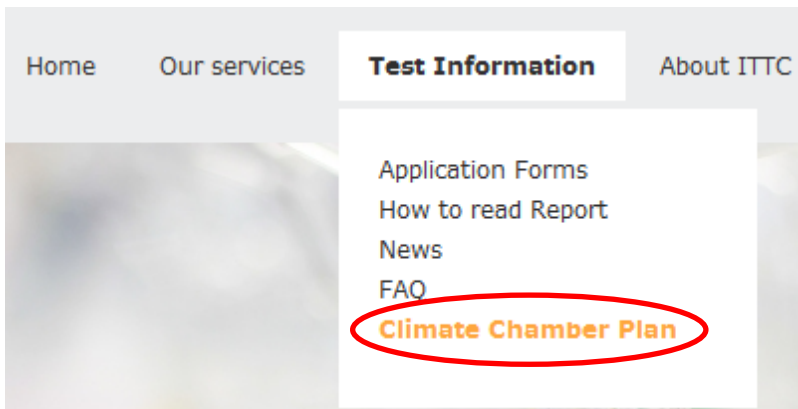

--- "Modify date" has been added. It's now easier for suppliers to get the latest information.

2. Updated Links on Training

--- A link to China BU day has been added. IKEA coworkers can register to join in the training as needed.

--- A link to Service Application form has been added. Suppliers can apply for ITTC support service for lab competence set up.

3. Created a New Page for Climate Chamber Test Cycle Plan

--- An planning chart of climate chamber availability is shown here. It's now more clear for suppliers to judge the date of preparing samples.

ITTC Supplier Open Day
